EDUCATION

Higher School of Technology of Sale

2025 – 2026 | Bachelor's Degree in Big Data & Artificial Intelligence (BUT)

- Statistics and Data Analysis · Data Warehousing & Big Data · Data Mining · Machine Learning & Fundamentals of Deep Learning · Agile Methodologies & Design Thinking · DevOps & Web Services

2023 – 2025 | University Diploma of Technology in Computer Engineering (DUT)

- Programming · Computer Networks · Security · Statistics & Probability · Data Analysis.

EXPERIENCE

FREELANCE PROJECTS

- Documind.com | Next.js, Python, MySQL, GCP
  Developed an AI-driven dashboard that eliminates manual document scanning by automatically reading raw text from uploaded PDFs, organizing it into structured database records.
- CallMeGrowth.com | React
  Developed a professional website for a digital marketing agency focused on growth and branding.
- Ladybug-Trading.com | HTML, CSS, JS
  Developed and improved an e-commerce website selling handcrafted and decorative products.

INTERNSHIP

- **DarbTech** — Graduation Internship / BUT Capstone Project — Rabat, Morocco | April. 2026 – September. 2026
  Developed custom Odoo modules, a RAG-based AI chatbot, and n8n automation workflows for OCR-based invoice processing and contact Fuzzy Matching. Implemented ETL pipelines, Odoo SaaS data migration, and Power BI dashboards with Adaptive Seasonal Model forecasting for business intelligence and predictive analytics within an Agile environment.
- **2PI e-learning** — Graduation Internship / DUT Capstone Project — Rabat, Morocco | April. 2025 – June. 2025
  Built a mobile app and automated CRM module driven by a WhatsApp AI Agent to handle background conversation analysis and real-time lead tracking.

ACADEMIC PROJECTS

- **E-Sport** – Developed an intelligent e-commerce platform integrating ML driven sales forecasting, an automated support chatbot, and a live, bi-directional chat interface (React, FastAPI, MongoDB, JWT)
- **AI Resume Screening** – AI powered CV screening and candidate scoring application (FastAPI, React, Docker)
- **Redis Game of Life** – Implemented a distributed Game of Life using Redis (React, Redis, Docker)
- **Montana** – Developed a web based hotel reservation platform (Laravel, MySQL)
- **Cabinet Management** – Developed a medical practice management system. (Spring Boot, MySQL, Hibernate)

TECHNICAL SKILLS

- **Languages & Frameworks** : Java, PHP, Python, JavaScript, Spring Boot, React, Next.js, Django, FastAPI, XML
- **Databases** : MySQL, PostgreSQL, MongoDB, Redis, Supabase, Oracle
- **AI & Data** : NLP, PyTorch, TensorFlow, RAG, Scikit-learn, NeuralProphet, OpenCV, Langchain, LangGraph
- **Other** : Linux, Git, GitHub, GitLab, Bitbucket, Jira, Docker, Kubernetes, Azure Functions, GCP, Odoo, Agile,n8n

CERTIFICATIONS

- **Chainguard** — AI Threat Tamer
- **MongoDB** — Deploying and Evaluating GenAI Apps with MongoDB
- **MongoDB** — Building RAG Apps Using MongoDB
- **Microsoft Learn** — Operationalize Machine Learning Models (MLOps)

LANGUAGES

- **English** — Advanced
- **French** — Advanced
- **Arabic** — Advanced
- **Amazigh** — Native
